

Sat. night

Dear Edith,

I checked with Mary Brower this afternoon about the photographer and she said she remembered Phillips who took most of her pictures & I said I remembered him too. Washington belonged to our chapter but has now moved away. Then I asked her whether she remembered a name like McKillip & she said a family by that name lived on First St. & the wife belonged to different group, her mother did & the children came to their house. Also, she thought there might be pictures taken by him around her house - probably in the attic - but it would be too warm up there now. She is 78.

A couple by that name used to live at the hotel & there was also a bachelor she knew. She looked in the phone book but couldn't find that name so thinks they are all dead. If she learns anything more she will let me know & possibly I will see her Fri. as we have a Sat. meeting. Does Donald want me to send the picture before I come up? He is safe in using that name - McKillip.

So far I haven't found out where they call Realform - the place in Bloom doesn't & where I got my last girdle doesn't but I will keep on trying.
